

COVID-19 GUIDELINES

WE ARE HERE TO HELP YOU!

We want to make your event the best during these challenging times.

Our AKE Team will continue being professional and dress to impress. However, we added a new accessory to our uniform. We will begin wearing masks when socializing with guests in close proximity. If our TEAM shows any signs of illness we will immediately send them home. We will also already have several team members available in case we run into this situation the day of your event.

Regarding our Photo Booth equipment at this time, the CDC recommends an open-air type of environment. We are fortunate that we carry several open-air models of photo booths for you to choose from: Our Action Roaming Booth & Digital Social Booths. Our equipment is sanitized before, during and after each event. When your guests send out their digital photos via text or email, our staff will make sure to sanitize our touch screens after every use. We will not be able to include hand held props with any of our packages at this time. However, we do have other alternative features that will enlighten the experience. Such as our digital photo filters, boomerang videos, and fun animated gifs, which we are happy to add at no additional cost. The on-site photo booth setup will be reconfigured to maintain a social distance environment. We will have stations with temporary tape on the ground marking 6-foot distancing. We will post signs indicating how to line up for the photo booth experience. We will also encourage the guests not to congregate or engage in conversations and kindly wait to be called when the line has decreased.

The “new normal” for future events will have an unfamiliar feel from the current challenges we are facing. Therefore, we will do everything we can to make your event memorable and comfortable. We want you and your guests at ease. Your safety and health are our priority.

Thank you,

AKE Team
